RHT Partners takes a stake in SSK Technologies, a security and surveillance specialist company

UAE, December, 2009 - RHT Partners takes a stake in SSK Technologies, a Dubai based, security, surveillance and technology subsidiary of SSK Group. SSK Technologies provides video surveillance and security solutions to government and private organizations. The Company has successfully implemented large scale infrastructure projects for the Road and Transport Authority and Dubai Police amongst other security departments. In addition to taking a Board role, RHT Partners will take an active operational role in leading the regional expansion of SSK Technologies. Commenting on the RHT position, Mr. Hany Syed, Senior Manager at RHT said "we believe there is opportunity for SSK to leverage its experience for expansion throughout the GCC and beyond. The security sector is a key growth market for the region and an area where RHT's global contacts can be leveraged. Over the coming years, we will look to evolve SSK Technologies into a diversified security technology firm by partnering with top manufacturers to provide cutting edge solutions for both private and government applications". SSK Group is one of the oldest firms in the UAE, founded by Retired Brigadier Saeed Salem Khalfan Almarri.
